PROFILE

Finance & Business Operations professional with 9+ years of experience driving operational excellence across accounting, financial operations, audit, process improvement and automation in multinational organizations.

My career spans Big Four consulting (PwC), global financial services (J.P. Morgan), and U.S. accounting and tax operations, providing me with a unique combination of financial expertise, operational thinking and business process optimization.

I have led teams of up to 16 professionals, managed complex cross-functional projects, implemented automation initiatives using Power BI, Tableau, Alteryx and Python, and consistently improved operational efficiency through data-driven decision making.

I enjoy solving operational challenges, simplifying complex processes and building scalable solutions that allow organizations to grow more efficiently.
